

The home of superior colour, and exceptional edibles for your garden.

We have everything you need to add that splash of annual colour to enhance any spot in the garden. With a fantastic seasonal range there is sure to be something for everybody.

Nothing beats the joy of growing your own fruit and vegetables. The flavour and smell of home grown is amazing. There is nothing really that can compare to it. It is hard to describe the difference, but once you taste it, there is no going back.

So, take the time to look around our new website. The shopping basket in the product section is just one of the great new features. You can add to it as you go through the collections, print it out and take it with you to the nursery to help with your purchase.

Enjoy,

and remember this is *where it all begins...*
